

ENVIRONMENTAL POLICY

Waste Management Systems Limited provides a domestic commercial and industrial waste disposal service and recognises its responsibility to minimise its impact on the environment and to help safeguard the environment for future generations.

This policy sets out our aims and objectives to integrate good environmental practices within our daily operations, prevent pollution and to improve our environmental performance.

In pursuit of this policy Waste Management Systems Limited will:-

1. Comply with all relevant statutory legislation and codes of practice that apply to its activities.
2. Plan organise and control all our activities that may have an environmental impact and will reuse and recycle materials wherever possible, by adherence to procedures, work instructions and other management system documentation.
3. Ensure that all employees are aware of their environmental responsibilities and that this is an integral part of their working life, supported by training where necessary.
4. Use recycled products and renewable energy sources where feasible.
5. Set continuous improvement targets and objectives on a regular basis and carry out regular reviews of progress made, setting new targets where necessary.
6. Identify and assess all significant environmental aspects which may arise as a direct result of its activities, products and services, ensuring that these aspects are maintained and updated regularly.
7. Periodically review this policy and revise it where necessary to reflect changing conditions and information.
8. Maintain registration to ISO 14001:2004
9. Communicate this policy to external bodies or the public on request.

Richard Scarrott
